PROFESSIONAL PROFILE

Dubai-based multidisciplinary designer with **5+ years of professional 3D / CGI and visual-production experience** across UAE events, exhibitions, brand activations, and international automotive presentations. Strong in photorealistic **event environments, 2D graphics, motion content, client-ready concept renders, and production artwork**. Translate briefs into mood boards, visual explorations, spatial concepts, animations, and fabrication-aware assets in collaboration with creative and production teams. Confident working independently on creative execution and iterations.

CORE CAPABILITIES

Experiential & event design: Exhibition environments, activation concepts, spatial layouts, event screens, visual presentations and digital experiences.

3D visualization: Modelling, materials, lighting, cameras, rendering, animation, environment building and optimized 3D assets.

2D design & production: Key-visual adaptation, branding assets, layout, motion graphics, compositing, vector and large-format artwork.

Creative development: Mood boards, look development, storytelling, creative-direction support, pitch imagery and fast client revisions.

Technical handoff: CNC-ready artwork, fabrication drawings, presentation assets and coordination with event production teams.

PROFESSIONAL EXPERIENCE

Interactive Developer & Creative Technologist | Powerdose Automotive Customisation, Dubai

Nov 2025 - Present | Full-time

- Translate premium automotive product briefs into concepts, 3D visuals, camera sequences and customer-facing presentation content.
- Create product materials, lighting, motion and presentation experiences from early visual exploration through final delivery.
- Combine 3D, interactive content and AI-assisted concept development while managing revisions and production requirements.

Experiential Designer | 3D Visualizer | Creative Technologist | Supreme Events UAE

May 2025 - Nov 2025 | Full-time

- Created photorealistic exhibition, event and branded-activation visualizations, including 3D environments, layouts and client presentation renders.
- Produced 2D branded graphics, motion animations and screen content for live events and marketing presentations.
- Developed interactive digital experiences, including Unity-based game content for VOX Cinemas event activations.
- Prepared CNC artwork, production-ready vector graphics, fabrication drawings and large-format assets for physical installations.
- Collaborated with production, fabrication and creative teams to refine concepts, handle feedback and support on-site deliverables.

PROFESSIONAL EXPERIENCE - CONTINUED

Digital Designer | CGI Generalist | Automotive Visualization | Faurecia / FORVIA

Apr 2021 - Jun 2025

- Produced photorealistic automotive interior and exterior CGI, 3D environments, animations and presentation assets for international audiences.
- Developed materials, texture detail, lighting, cinematic cameras, render passes and compositing for polished product storytelling.
- Contributed visualization content supporting CES, Auto Shanghai / Shanghai Auto Show and other global automotive presentations.
- Translated technical references into understandable visual concepts in coordination with product and international creative teams.
- Optimized 3D models, textures and materials for efficient rendering and interactive or real-time requirements.

SELECTED RELEVANT WORK

UAE events and exhibitions - concept to production

Created environmental and exhibition renders, branded screen content, client-facing presentation imagery and fabrication-aware 2D files in partnership with event teams.

VOX Cinemas - interactive activations

Developed interactive games and visual content for experiential activations, combining real-time interaction with event production requirements.

International automotive showcases - FORVIA / Faurecia

Produced photoreal CGI and animated visual storytelling, emphasizing environment development, textures, lighting and camera sequences.

SOFTWARE & PRODUCTION TOOLKIT

3D / Visualization: Blender (advanced), Autodesk Maya, SketchUp (intermediate), Unreal Engine, Unity; product and environmental CGI, real-time optimization.

Design / Motion: Adobe Photoshop, Illustrator, After Effects, Premiere Pro; graphic design, motion graphics, editing, compositing and presentation artwork.

Delivery / Fabrication: CNC-ready vectors, production graphics, large-format artwork, technical handoff, asset optimization and client feedback cycles.

AI-assisted creative workflows: Midjourney, Adobe Firefly, Runway, Kling, Veo, Flux, Leonardo AI, Higgsfield, Photoshop AI, ChatGPT, Claude and Gemini.

EDUCATION

Animation and VFX studies | Thakur Toonskool Advanced Animation Academy | 2021

FREELANCE READINESS

Location: Dubai, UAE | **Visa:** Self-sponsored UAE visa | **Equipment:** Own laptop and creative software setup.

Languages: English and Hindi | **Engagement:** Open to project-based 2D / 3D and event visualization assignments, subject to schedule confirmation.
